---

### Derivative classification.

---

Distinct from “original” classification is the determination that information is in substance the same as information currently classified, because of incorporating, paraphrasing, restating or generating in new form information that is already classified, and marking the newly developed material consistent with the marking of the source information. Persons who only reproduce, extract, or summarize classified information, or who only apply classification markings derived from source material or as directed by a classification guide, need not possess original classification authority.
