### Initial preventive physical examination: Conditions for and limitations on coverage.

---

(a) *Definitions.* As used in this section, the following definitions apply:

*A review of any current opioid prescriptions* means, with respect to the individual determined to have a current prescription for opioids, all of the following:

- (i) A review of the potential risk factors to the individual for opioid use disorder;
- (ii) An evaluation of the individual's severity of pain and current treatment plan;
- (iii) The provision of information on non-opioid treatment options; and
- (iv) A referral to a specialist, as appropriate.

*Eligible beneficiary* means, for the purposes of this section, an individual who receives his or her initial preventive examination not more than 1 year after the effective date of his or her first Medicare Part B coverage period.

*End-of-life planning* means, for purposes of this section, verbal or written information regarding the following areas:

- (1) An individual's ability to prepare an advance directive in the case where an injury or illness causes the individual to be unable to make health care decisions.
- (2) Whether or not the physician is willing to follow the individual's wishes as expressed in an advance directive.

*Initial preventive physical examination* means all of the following services furnished to an eligible beneficiary by a physician or other qualified nonphysician practitioner with the goal of health promotion and disease detection:
