

42 C.F.R. § 410.19

Ultrasound screening for abdominal aortic aneurysms: Condition for and limitation on coverage.

(a) *Definitions:* As used in this section, the following definitions apply:

Eligible beneficiary means an individual who—

- (1) Has not been previously furnished an ultrasound screening for an abdominal aortic aneurysm under Medicare program; and
- (2) Is included in at least one of the following risk categories:
 - (i) Has a family history of an abdominal aortic aneurysm.
 - (ii) Is a man age 65 to 75 who has smoked at least 100 cigarettes in his lifetime.
