

## 42 C.F.R. § 81.21

---

### Cancers requiring the use of NIOSH-IREP.

---

- (a) DOL will calculate probability of causation for all cancers using NIOSH-IREP.
- (b) Carcinoma in situ (ICD-10-CM codes D00-D09), neoplasms of uncertain behavior (ICD-10-CM codes D37-D44 and D48), and neoplasms of unspecified nature (ICD-10-CM code D49) are assumed to be malignant, for purposes of estimating probability of causation.
