

## 42 C.F.R. § 82.15

---

### How will NIOSH evaluate the completeness and adequacy of individual monitoring data?

---

(a) NIOSH will evaluate the completeness and adequacy of an individual's monitoring data provided by DOE through one or more possible measures including, but not limited to:

- (1) Comparisons with information provided by claimants, co-workers, and other witnesses;
- (2) Comparisons with available information on area monitoring, production processes, and radiologic protection programs;
