

42 C.F.R. § 433.111

Definitions.

For purposes of this section:

(a) The following terms are defined at 45 CFR part 95, subpart F § 95.605:

“Advance Planning Document”; “Design” or “System Design”; “Development”; “Enhancement”; “Hardware”; “Installation”; “Operation”; and, “Software”.

(b) “Mechanized claims processing and information retrieval system” means:

(1) “Mechanized claims processing and information retrieval system” means the system of software and/or hardware used to process claims for medical assistance and to retrieve and produce service utilization and management information required by the Medicaid single state agency and Federal government for program administration and audit purposes. It may include modules of hardware, software, and other technical capabilities that are used by the Medicaid Single State Agency to manage, monitor, and administer the Medicaid enterprise, including transaction processing, information management, and reporting and data analytics.

(2) “Mechanized claims processing and information retrieval system” includes a “System of Systems.” Under this definition all modules or systems developed to support a Medicaid Management Information System (MMIS) and Eligibility and Enrollment (E&E) may be implemented as discrete, independent, interoperable elements. Use of a System of Systems requires interoperability between the systems.
