

42 C.F.R. § 483.376

Education and training.

(a) The facility must require staff to have ongoing education, training, and demonstrated knowledge of—

- (1) Techniques to identify staff and resident behaviors, events, and environmental factors that may trigger emergency safety situations;
- (2) The use of nonphysical intervention skills, such as de-escalation, mediation conflict resolution, active listening, and verbal and observational methods, to prevent emergency safety situations; and
