
42 C.F.R. § 510.325

Allocation of payments for services that straddle the episode.

- (a) *General.* Services included in the episode that straddle the episode are prorated so that only the portion attributable to care furnished during the episode are included in the calculation of actual episode payments.
- (b) *Proration of services.* Payments for services that straddle the episode are prorated using the following methodology:
- (1) *Non-IPPS inpatient services and other inpatient services.* Non-IPPS inpatient services, and services furnished by other inpatient providers that extend beyond the end of the episode are prorated according to the percentage of the actual length of stay (in days) that falls within the episode.
