

29 C.F.R. § 810.110

Examples of direct production work.

- (a) Direct production work includes production of passenger vehicles, light trucks, or heavy trucks, or parts for these vehicles, as well as the set-up, operation or maintenance of tools or equipment used in the production of those vehicles and parts. The work may take place on a production line, at a workstation, on the shop floor, or in another production area. Direct production work includes material handling of vehicles or parts; inspections of vehicles or parts, including inspections that are normally categorized as quality control and, for heavy trucks, pre-sale inspections carried out at the place where the vehicle is produced; on-the-job training regarding the execution of a specific production task; and maintaining and ensuring the operation of the production line or production area and the operation of tools and equipment used in the production of vehicles or parts, including the cleaning of the line or production area and the places around it.
