

29 C.F.R. § 810.300

High-wage assembly expenditures credit.

(a) A producer may receive a single credit of five percent towards the total LVC requirement if it demonstrates any one of the following:

- (1) Operation of (or a long term contract with) a “high-wage” engine assembly plant in North America with a minimum annual production capacity of originating engines;
- (2) Operation of (or a long term contract with) a “high-wage” transmission assembly plant in North America with a minimum annual production capacity of originating transmissions; or
