
42 U.S. Code § 300gg-133

Provider requirements with respect to disclosure on patient protections against balance billing

Beginning not later than January 1, 2022, each health care provider and health care facility shall make publicly available, and (if applicable) post on a public website of such provider or facility and provide to individuals who are participants, beneficiaries, or enrollees of a group health plan or group or individual health insurance coverage offered by a health insurance issuer a one-page notice (either postal or electronic mail, as specified by the participant, beneficiary, or enrollee) in clear and understandable language containing information on—
