Global Accessibility Trends: Best Practices to Reach Equitable Access Compliance across a Broad Portfolio of Websites, Mobile Apps, or IoT Products

Michele Landis, Co-Founder, Accessible360, LLC.

2022-03-22

- Understand specific laws, requirements, and standards in the countries you operate in so that you can advise and take action across business units to build a sustainable approach to inclusive design and development

- Structure a corporate policy of truly inclusive digital practices for external users of products, in addition to within the organization, to ensure inclusive job postings, on-boarding employees, and all corporate communications offer equitable access

- Cut through the noise on this niche compliance topic. There is a lot of bad information out there and no quick fixes for this. Explore stories "from the front lines" for those struggling to ignite urgency within their organizations on this human civil rights issue
