

AI: A Separate and New Risk for the Ethics & Compliance Professional

Colleen Dorsey, Director, Organizational Ethics & Compliance, University of St Thomas.

Gulzar Babaeva, VP, Deputy General Counsel, Shipt.

2022-05-20

- Understanding what AI is and its impact on you and your organizations is becoming increasingly necessary in today's technology-forward world. This session will provide a grounding on those topics.
- As an ethics and compliance professional, you need to consider the extent of risk your organization faces depending on whether these automated decision-making systems impact sensitive aspects of your customers' lives.
- Gulzar Babaeva and Colleen Dorsey will walk you through ways you might consider thinking about risk in this newly emerging area and how you might structure frameworks to catch issues early on in the procurement, design, and/or development phases.
