

Leveraging EHR to Maintain Clinical Research Billing Compliance

Mary Veazie, Manager/President, Clinical Research Consulting & Education Services, LLC.

2022-06-15

- Leverage technology to enable delivery of complex clinical trial treatments to patients while maintaining compliance with insurance billing guidelines.
- Reduce the billing risk for sites and sponsors for clinical trials with inpatient stays. Speed up the delivery of novel compounds like CAR T cells to patients.
- Understand when to bill a sponsor vs. a patient's insurance for clinical trials with required inpatient stays.
- Streamline the budget development and negotiations for clinical trials with inpatient stays for patients.
