Help drive change by planning for change

By Ahmed Salim

Ahmed Salim (ahmed.salim@irhythmtech.com) is Senior Director of Ethics and Compliance Services at iRhythm Technologies in San Francisco, California, USA.

Change management comprises steps that assist with the implementation of a transition or transformation within an organization and is also a method routinely used by operational stakeholders in organizations to help drive change. Steps include, but are not limited to:

- Building a coalition,
- Starting at the top,
- Creating a sense of urgency,
- Planning change, and
- Communicating the change.
