
40 C.F.R. § 63.7923

What monitoring and work practice standards must I meet for pressure relief devices?

(a) For each pressure relief device in remediation material service, you must comply with either paragraph (a) (1) or (2) of this section following a pressure release actuation event, as applicable.

(1) If the pressure relief device does not consist of or include a rupture disk, return the pressure relief device to the normal operating conditions specified in § 63.7920(e) as soon as practicable and conduct instrument monitoring by the method specified in § 63.1004(b) or § 63.1023(b), as applicable, no later than 5 calendar days after the pressure release device returns to remediation material service following a pressure release actuation event, except as provided in § 63.1024(d) or of § 63.1005(c), as applicable.

(2) If the pressure relief device consists of or includes a rupture disk, except as provided in § 63.1024(d) or § 63.1005(c), as applicable, install a replacement disk as soon as practicable but no later than 5 calendar days after the pressure release actuation event.

(b) Except for the pressure relief devices described in paragraph (e) of this section, you must comply with the requirements of paragraphs (c) and (d) of this section for each pressure relief device in remediation material service.
