

40 C.F.R. § 1700.19

Controllable pitch propeller hydraulic fluid.

- (a) The protective seals on controllable pitch propellers must be maintained to minimize the leaking of hydraulic fluid.
- (b) To the greatest extent practicable, maintenance activities on controllable pitch propellers must be conducted when a vessel is in drydock. If maintenance and repair activities must occur when the vessel is not in drydock, appropriate spill response equipment (*e.g.*, oil booms) must be used to contain and clean any oil leakage.
