# 15 U.S. Code § 2235

---

## Investigation authorities

---

### **(a) In general**

In the case of a major fire, the Administrator may send incident investigators, which may include safety specialists, fire protection engineers, codes and standards experts, researchers, and fire training specialists, to the site of the fire to conduct a fire safety investigation as described in subsection (b).

### **(b) Investigation required**

A fire safety investigation conducted under this section—
