

45 C.F.R. § 2507.23

Collection and payment of fees.

- (a) AmeriCorps must ordinarily receive all applicable fees before it sends copies of records to a requester. This is payment for work already completed, not an advance payment.
- (b) AmeriCorps may require an advance payment before work begins or is continued on a request when one of the following two circumstances exists. In these cases, AmeriCorps will not consider the FOIA request to have been received and will not conduct further work on the request until it receives the required payment. If the requester does not pay the advance payment within 30 calendar days after the date of AmeriCorps' fee determination, the request will be closed.
