European Union tackles the rise of the robot (AI)

By Robert Bond

Artificial intelligence (AI) is no doubt here to stay and is very much an aspect of work and play. It has so many benefits for us, but there are also risks that untrained AI and unchecked reliance on AI may disadvantage some of us humans!

The European Union (EU) has led the way in drafting legislation that addresses compliance and ethics concerns in our use of and reliance upon AI. While the draft laws have yet to be finalized, it is important to understand the impact they may have on our businesses.
