

15 U.S. Code § 9710

Identification and support of consistent, Federal set of forward-looking, long-term meteorological information

(a) Definitions

In this section:

(1) Extreme weather

The term “extreme weather” includes observed or anticipated severe and unseasonable atmospheric conditions, including drought, heavy precipitation, hurricanes, tornadoes and other windstorms (including derechos), large hail, extreme heat, extreme cold, flooding, sustained temperatures or precipitation that deviate substantially from historical averages, and any other weather event that the Administrator determines qualifies as extreme weather.
