
42 U.S. Code § 300hh–35

Epidemic forecasting and outbreak analytics

(a) In general

The Secretary, acting through the Director of the Centers for Disease Control and Prevention, shall continue activities related to the development of infectious disease outbreak analysis capabilities to enhance the prediction, modeling, and forecasting of potential public health emergencies and other infectious disease outbreaks, which may include activities to support preparedness for, and response to, such emergencies and outbreaks. In carrying out this subsection, the Secretary shall identify strategies to include and leverage, as appropriate, the capabilities to public and private entities, which may include conducting such activities through collaborative partnerships with public and private entities, including academic institutions, and other Federal agencies, consistent with section 247d–4 of this title, as applicable.
