

40 C.F.R. § 1036.201

General requirements for obtaining a certificate of conformity.

- (a) You must send us a separate application for a certificate of conformity for each engine family. A certificate of conformity is valid from the indicated effective date until December 31 of the model year for which it is issued.
- (b) The application must contain all the information required by this part and must not include false or incomplete statements or information (see § 1036.255).
