

SCCE03 Using the Right Data and Analytics with Dashboards to Identify What, Where and When to Audit

David Duhaime, Key Account Manager, Thomson Reuters.

2023-09-06

- Identify areas to audit with data analytics and dashboards for appropriate actions and monitor for compliance
- Incorporation of 3rd party data to identify outside risks to address program integrity and avoid provider abrasion
- Improve state and federal reporting, ensure compliance, improve quality of care, and reduce cost of care
