Go green: The amazing cultural power of plants in the office

By Kristy Grant-Hart

Improving corporate culture can be difficult. Tone from the top and leadership walking the walk and talking the talk is important, but those are often hard to change. The compliance department should use every chance it can to improve the culture—including unexpected opportunities.

There's a surprisingly easy way to reduce stress, boost productivity, minimize sick days, and improve air quality at your office—which will result in improved culture. What is it? The humble office plant.
