

## 40 C.F.R. § 705.22

---

### Duplicative reporting.

---

Any person covered in this part may notify EPA through the electronic reporting system in § 705.35 that certain information has already been submitted to EPA, and any such person does not need to re-submit the information. The notification must include the statutory and regulatory provision under which the information was submitted and in which year it was submitted. This ability is limited to the type of information listed in this section. If the previous submission did not account for all information required to be submitted pursuant to this part (*e.g.*, due to exemptions inapplicable to this part), then the person may not rely on that prior submission to satisfy the reporting requirements of this part.

(a) *Chemical Data Reporting rule.* If a person identified in § 705.10 has already reported certain information in § 705.15 to EPA pursuant to the Chemical Data Reporting rule at 40 CFR part 711, then duplicative reporting of that information is not required of the years for which the information has already been reported. Such information that may potentially be duplicative under this part is limited to:

(1) *Chemical description.* Physical state of the chemical or mixture containing a chemical substance, pursuant to 40 CFR 711.15(b)(3)(C)(ix).

(2) *Sector description.* Industrial processing and use type, sector(s), functional category(ies), and percent of production volume for each use, pursuant to 40 CFR 711.15(b)(4)(i)(A) through (D).
