

Demystifying Government Cyber Security Compliance

David Kessler, Public Sector Product Compliance Counsel, Verizon.

September 16, 2019

- Understand the alphabet soup of the Federal government cyber security landscape, including FISMA, NIST, FIPS, FedRAMP, CNSSI 1253, IRS 1075, and similar requirements.
- Learn techniques for encouraging compliance-by-design for Federal cyber security requirements in a commercial company.
- Appreciate how compliance with Federal cyber security requirements can reduce a commercial company's overall cyber security risk.
