

RIM 101: Managing Risk and Designing a Compliant Information Management Plan

RIM 101: Managing Risk and Designing a Compliant Information Management Plan

Jacki Cheslow, Director, Business Ethics & Compliance, Avis Budget Group.

September 17, 2019

- While we live in the Information Age, not all information created or received is equal
- This session will focus on building a compliant and legally defensible plan to manage your records and information
- During the session we will explore the record and information lifecycle, General Accepted Accounting Principles and the steps required to design a compliant and legally defensible record retention plan
