

Report on Medicare Compliance Volume 29, Number 40. November 09, 2020 News Briefs: November 9, 2020

By Nina Youngstrom

◆ **Clarification: The HHS Office of Inspector General will provide information about telehealth fraud to CMS** that will be useful as it establishes “guardrails” and standards to protect Medicare and Medicaid now that it has widened coverage of telehealth services. A story in the Nov. 2 *RMC* indicated OIG would develop the guardrails and policies itself. The story has already been updated in the online version of *RMC*.

◆ **Recovery audit contractors said Nov. 3 they will perform complex medical reviews of deep brain stimulation** (medical necessity and documentation requirements) as outpatient procedures^[1] and inpatient procedures.^[2]
