

Re-evaluating Your Risk Assessment Process Post-Pandemic and Pivoting Your Action Plans

Betsy Wade, Chief Compliance & Ethics Officer, Corporate Compliance & Ethics, Signature Healthcare Consulting Services, LLC.

November 12, 2020

- Understand how the COVID-19 pandemic has created an unprecedented risk environment for health care compliance, internal audit and risk management professionals
- Identify specific clinical, environmental, financial, operational, regulatory, reputational and strategic risks facing health care organizations that should be incorporated into the annual risk assessment process as a result of the COVID-19 pandemic
- Learn how to incorporate COVID-19 risks into your compliance monitoring plans and internal audit plans for approval by your management, compliance committee, and Board
